

Magnetic Barrel Metal Polisher TBM-3401

磁気バレル研磨機

 **TANABE**
Unrivaled Accuracy

- ◆ Clockwise, counter clockwise, and alternating rotation modes
- ◆ Timer control
- ◆ Adjustable rotation speed
- ◆ Touch panel operation
- ◆ Reliable, made-in-Japan quality

Polishes anything, from casted jewelry to handmade jewelry, at any size.

Jewelry made of gold, silver, or platinum, and work pieces made of copper, brass, steel, or titanium can all be polished. The stainless steel pins inside are moved by magnetism, causing them to move up and down and polish the surfaces of intricately designed products.

The TBM-3401 can be used for polishing surfaces and removing burrs from casted products. With all products, the result is a beautifully polished surface.

Model	TBM-3401
Dimensions	350(W) x 360(D) x 320(H)mm
Weight	24kg
Barrel size	300(D) x 130(H)mm
Capacity	1000g (about 100 to 200 rings at a time)
	Made in Japan

Power :	1 Φ 100V class	1 Φ 200V class
Rated input AC voltage :	Phase 1 100~115V	Phase 1 200~240V
Input AC voltage range :	90~132V	170~250V
Frequency :	50Hz/60Hz	50Hz/60Hz
Frequency range :	±5%	±5%

Conditions for usage
Operation and storage temperature : 0~45°C (Do not let freeze)
Operation and storage humidity : under 85% (Do not allow condensation)

※ Design and specifications are subject to change without notice.

● Sold separately

Stainless steel pins 2kg

(For best results, use Tanabe Kenden's pins.)

Polishing liquid
